- ❖ Syllabus should be more industry friendly or career oriented. Industry oriented syllabus and practical training are required.
- ❖ It should be more attractive with recent data analytics.
- ❖ The practical possibility of the coverage of syllabus, specifically with respect to internships, needs to be taken into account.
- ❖ It would be better if the syllabus of each semester is a little less.
- ❖ Need job oriented syllabus.
- ❖ The former 2+1 syllabus was much better for in-depth study and assimilation of the topics by the teachers and students too. This syllabus may be pragmatic, but not at all satisfactory for the teachers. Semester system is not suitable for Indian education system, it is an American model imposed on us.
